

### Small Primate Catch Glove

- Excellent protection against bites, scratches and lacerations
- Hand: High Dexterity, tactile sensitivity and flexibility, allowing for proper and safe restraint techniques
- Fingertips: Leather thimbles on the inside of the thumb, forefinger and middle fingertips for added bite protection
- Thumb & Palm: Reinforced Double Layer of Premium leather for added protection
- Split seam design prevents any roll down, providing arm protection and allowing for greater movement when bending your arm
- Stitching: Non-exposed stitching provides protection against snagging. High strength seam construction allows for added durability and strength
- Inner Liner: Fleeced poly cotton liner for added insulation, sweat absorption and comfort
- Tested to EN388: 2016 + A1:2018 6.5 Puncture Resistance. Specification Force (N): Performance Level 4

Our work gloves are designed for trained professionals (Research lab technicians/ Veterinarians/ Animal handlers etc.) and are suitable for working with small primates within LAR (Lab Animal Research) facilities.

These Premium Leather Primate Catch Gloves are manufactured using a proprietary leather tanning process with top grade premium leather for the Hand and full grain hide for the Arm and Sleeve.

Our Made in the USA gloves are rigorously tested under stringent process controls to ensure that each glove meets exacting quality standards and performs to specifications.
